Company Profile

COMPANY OVERVIEW

Cloud Consulting is a citizen owned ICT Company by young people. We are focused on transforming highly specialized knowledge into practical and cost effective solutions for a broad range of business sectors and industries. By virtue of our various departments, we can offer our customers a “one-stop solution” for their ICT Requirements.

01 Network & Hardware Service

02 Software & Application Development

03 Emergency Technology

HUMAN CAPITAL

We are an organization consisting of a close-knit team driven with dynamic and talented achievers. Among us are professionals in networking, specialists in software programming languages, project managers and analysts with extensive experience. Our team's focus is on the end results and we passionately surge towards our set target.

WHY OUR SERVICES

PROVEN SUCCESS

Cloud Consulting has a long list of successfully completed projects for government and private clients.

PRESENCE

Cloud Consulting 100% own Citizen Company and based in Gaborone, which since its inception in 2012 has undertaken a wide range of ICT projects.

ALL IN ONE ICT SOLUTION

Cloud Consulting has the unique ability to deliver the complete cycle of ICT (Design, Development, Support, Project Management and Training).
